

Oluwasuyi Oluwatimilehin

Frontend Developer

Email: oluwasuyitimilehin@gmail.com | Phone: +2347061403565

About

Highly skilled and results-driven Frontend Developer with expertise in ReactJS, HTML, CSS, and JavaScript. Specialized in crafting responsive, user-friendly interfaces for web applications, enhancing user experience, and driving success.

Work Experience

Frontend Developer - Codecomm

Jan 2024 - Mar 2024

Engineered and launched a real-time chat application for the Codecomm community, improving communication and engagement. Managed the full frontend development lifecycle from concept to deployment.

Frontend Developer - Codeweb Project Solutions

Jan 2023 - Dec 2023

Developed responsive, user-friendly interfaces for multiple web applications using ReactJS. Collaborated effectively with cross-functional teams to deliver high-quality, scalable solutions.

Frontend Developer - Fastcare

Sep 2023 - Dec 2023

Contributed to the frontend development of Fastcare, a remote medical treatment platform. Optimized user interfaces for seamless and comfortable patient experiences.

Projects

Voting System

Developed a secure and efficient voting system for primary elections, ensuring data integrity and confidentiality.

Codeweb

Crafted the frontend design of a school website for an interactive learning experience.

Movieapp

Developed a movie discovery platform with personalized recommendations, search functionalities, and an intuitive interface.
